### Description

"Indonesian Coal Book 2016/2017", which is the seventh edition of the Indonesian Coal Book series, is the most comprehensive source of information on coal mining industry in Indonesia. It is an invaluable source of information on more than 300 coal mining companies operating in Indonesia, including maps of their locations, mining methods, production activities and coal specification and business plans. It also contains information about the existing common-user coal terminals, statistical data on the sector and directories of industry and government contacts. This full color book provides a comprehensive and easy-to-use reference containing detailed and up-to-date information on Indonesian coal industry. This edition is definitely a must-buy reference book for not only business executives, prospective coal investors, players, but also research centers and consultants.

### Contents

- Profiles of more than 300 coal mining companies
- Coal Resources/Reserves 2015; Coal Statistics 2010-2015 (Production; Domestic Sales; Export); Provincial Snapshot;
- Updated list of PKP2Bs; thousands of 'clean and clear' coal IUPs (concession holder, location, area, status); and list of licensed coal traders
