INVITATION FOR PREQUALIFICATION OF COAL PROCUREMENT

No: 003/S2P/PPBB/VI/2025

To meet the coal requirements for the operation of the Cilacap 2x300 MW coal-fired power plant (PLTU), with an estimated total volume of 850,000 tons per year over a 5-year contract period (with an option to extend every 5 years), and under a Coal Cost Insurance Freight (CIF) purchase scheme, the Coal Procurement Committee for the Cilacap PLTU units 2x300 MW, 1x660 MW, and 1x1000 MW hereby invites Coal Mining Companies to participate in the Prequalification for Coal Procurement for the Cilacap 2x300 MW power plant.

Coal Mining Companies that are interested may participate in the prequalification process.

Location: : Coal Procurement Committee of PT SUMBER SEGARA
PRIMADAYA
Treasury Tower, 39th Floor, District 8 SCBD Lot 28
Registration and Collection of : June 19 to July 3, 2025
Prequalification Documents: from 10:00 AM to 3:00 PM (Western Indonesia
Time/WIB)

Registration Requirements:

Prospective coal suppliers eligible to participate in the prequalification must meet the following criteria:

1. Possess a valid Decree of IUP-OP/PKP2B/IUPK-OP/IUP-OPK for Transportation and Sales, with a "clear and clean" status, issued by the authorized institution and still valid.
2. Do not have an active long-term coal supply contract with PT Sumber Segara Primadaya.
3. Each mining license or mining business permit may only be submitted by one participant.
 - i. If more than one participant submits the same mining license or permit, only the participant who holds the IUP-OP/PKP2B/IUPK-OP in the name of the respective mine shall be eligible to proceed in the Qualification process.
 - ii. Specifically for IUP-OPK holders, they must form a consortium with the mine owner holding the IUP-OP/PKP2B/IUPK-OP, which must still have uncontracted coal reserves and a production plan from the proposed mine.
3. Possess a statement document of the latest coal resources and reserves, independently certified by an institution or Competent Person based on applicable resource and reserve reporting codes or standards such as SNI/KCMI/JORC, or a reserve statement included in the Work Plan and Budget (RKAB) approved by the authorized institution. The company must have proven coal reserves specifically dedicated to the Cilacap Power Plant Units 1 and 2 (2x300 MW) in the following amounts:
 - a. If assuming 1 winner, the required 5-year reserve is: 170,000 MT x 5 years
 - b. If assuming 2 winners, the required 5-year reserve is: 85,000 MT x 5 years
 - c. If assuming 3 winners, the required 5-year reserve is: 56,667 MT x 5 years

Specifications for Cilacap Power Plant Units 1 and 2 (2x300 MW) are as follows:

Description	Typical Value	Range	Rejection Limit
Gross Calorific Value kcal/kg (ar)	[5000]	4800 – 5200	[<4800]
Total Moisture % (ar)	[27]	Max 31	[>31]
Sulphur Content % (ar)	[0.8]	Max 0.8	[>0.8]
Nitrogen % (adb)	[0.5]	Max. 1,1	[>1,1]
Ash % by weight in ash (ar)		Max. 10	[>10]
Hardgrove Grindability Index	[50]	48 – 64	[<48 or >64]
Coal Sizing (mm)			
> 32 – 50		Max. 3	[>3]
> 32		Min. 97	[<97]
< 2.38		Max. 25	[>25]
Ash Fusion Temperature Initial Deformation (°C)	[1150]	Min. 1150	[<1150]

5. Registration and collection of the Prequalification Documents must be conducted by the President Director/Board of Directors/Head of the Company or an authorized representative of the President Director/Board of Directors/Head of the Company, who has been granted authority to represent the company, by submitting a specific power of attorney letter affixed with sufficient stamp duty at the time of registration and document collection.
6. Present a valid Decree of IUP-OP/PKP2B/IUPK-OP/IUP-OPK for Transportation and Sales in the name of the participant.
7. The registration and document collection fee is IDR 100,000 (one hundred thousand Rupiah), payable directly to the Committee Treasurer by presenting this announcement advertisement.
